

ELEVATION CERTIFICATE AND LETTER OF MAP AMENDMENT (LOMA)

We know that flood insurance is very expensive. Herrick & Salsbury, Inc. offers you peace of mind and can greatly reduce the cost of insurance or eliminate the need altogether.

As a qualified professional, the elevation certificate we prepare utilizes the standardized Federal Emergency Management Agency (FEMA) forms and will be used by your insurance agent to obtain a quote for flood insurance if necessary.

Our Process to Determine LOMA Eligibility:

- Visit the property
- Determine the floodplain elevation for the property
- Measure the elevation of the structure
- Complete an elevation certificate
- If eligible, we will then file a LOMA application directly with FEMA

“I’ve used them for a number of years for some of my more critical surveys, especially along the waterfront. I would highly recommend Herrick & Salsbury, Inc. for their professionalism, their knowledge of all the codes and timeliness of their service.”

JOHN COLLIER, AB&JR HODGKINS
