

# *LAND CONSERVATION*

Land Conservation is an increasingly important and prominent facet within our service area. Land conservation generally restricts future development within a defined area.

Here at Herrick & Salsbury, Inc., much of our work is devoted to working with area conservation and land trusts. We survey small and large tracts of land that are being donated or purchased for permanent land conservation. Services include surveying the boundaries, defining the easement boundaries, brushing and blazing the easement lines, and mapping the easements.

## PAST PROJECTS

- Acadia National Park
- Blue Hill Heritage Trust
- Frenchman Bay Conservancy
- Hancock County Trustees of Public Reservations
- Maine Coast Heritage Trust
- Maine Department of Transportation
- United States Navy
